

Analytics Leadership Forum – Virtual Edition

MCKINSEY ANALYTICS ACADEMY

Executives play a critical role in delivering value and building long-term capability in analytics

- 1** **Finding opportunities** and being curious to understand how to use data to solve business challenges
- 2** **Actively nurturing and growing capability** in their divisions
- 3** **Inspiring their teams through compelling stories**, vision and role-modelling
- 4** **Fostering close collaboration between analytics and the business**
- 5** Avoiding value leakage by quickly **spotting and addressing “red flags”**

Analytics Leadership Forum (ALF) is a learning program that enables executives to transform their organizations

An event for 20-25 senior leaders (executives and business unit leaders)

Packed with cutting-edge content, immersive exercises, and thought-provoking conversations

An opportunity to share experiences and learn from peers across industries

Facilitated by experts

Key themes

Appreciating the transformative power and disruptive potential of advanced analytics

Designing, deploying and scaling an end-to-end analytics transformation

Developing and leading an analytics-driven organization

Analytics Leadership Forum

EMEA program

Virtual ALF emulates the learning experience of our in-person forum: integrated content, interactive flow, and connected community. We strongly encourage and expect participants to attend all sessions.

Program Sessions

Time for all sessions: 1400-1600 CET // 0800-1000 EDT
